

# Strandhotel Dünenmeer, Baltic Sea

Product: CeraLine shower channel

Project: Strandhotel Dünenmeer  
Location: Baltic seaside resort Dierhagen, Germany  
Architect: Geburtig planning group, Weimar  
Year: 2000

Nature has created one of the most beautiful dune landscapes on the Fischland-Darß-Zingst Peninsula. Right next to the large dune, between the sea and the adjoining forest, the beachfront hotel 'Strandhotel Dünenmeer' is a superior 4-star location with a first class spa service. Away from the hustle and bustle of the Baltic Sea, the hotel offers an oasis of relaxation: along the white beach, in Dünenmeer's shore gardens, surrounded by thatched dune houses, or in the spa area. The level-access showers are fitted with CeraLine by Dallmer - top-class award-winning shower channels in a top-class hotel.
