

# NeMo Ensemble Düsseldorf - Medienhafen district

With its proximity to the Rhine, its elegance, joie de vivre and creativity – the NeMo Ensemble embodies what Düsseldorf is all about. At the heart of the Medienhafen district, in the old town and close to the River Rhine, you will find the modern freehold apartments of the property developer INSTONE (formerly formart). A clean, minimalist design using high-quality materials and a timeless architecture has produced a coherent concept. The bright apartments with panoramic views were fitted exclusively with high-quality products – as were the bathrooms. The discreet CeraWall Individual shower channel from Dallmer is almost invisible and is the perfect complement to the clearly structured architecture. The smooth flowing design is also impressively easy to clean.
