

Grand Elysée Hotel, Hamburg

The 5-star Grand Elysée Hotel, Hamburg, is idyllically situated amidst greenery, yet in the city centre, with the Moorweide and Alster parks right nearby. The owner-run hotel accommodates 511 rooms and suites, 30 exclusive conference rooms, Hamburg's greatest ballroom, catering services, an art gallery and the large 1000-m² Elyseum spa and wellness area. The level-access showers in the guest rooms allow guests to wind down after their adventures around the port and city. When modernising the pools, the owners opted for Dallmer's CeraWall Individual – a top-class drainage system that has received numerous awards, is perfectly engineered with impeccable aesthetics and is nothing but straightforward for housekeeping.

Products: CeraWall Individual

Project: Hotel Grand Elysée
