

# Hotel Waldorf Astoria, Jerusalem

Spectacular and unique, it lies in the centre of Jerusalem: the new (old) Waldorf Astoria Hotel of the Israeli capital. The exterior view alone is unparalleled: The original façade of the Palace Hotel built in 1923 has been preserved and now adorns the new hotel with a composition of Greco-Roman, Gothic and Ottoman architecture that is well worth seeing. The interior of the Waldorf Astoria is exquisite and highly sophisticated: 10 floors, 223 rooms, magnificent staircases, a dreamlike view of the old town, a fitness suite, full-service spa facilities, restaurants, bars, ambience and a 5-star hotel service. In short, it is pure luxury. The pools are also fitted to the highest standards down to the CeraLine W shower channels: With customised or stainless steel cover plates, they give your level-access shower that perfectly fitting 'glossy' feel.

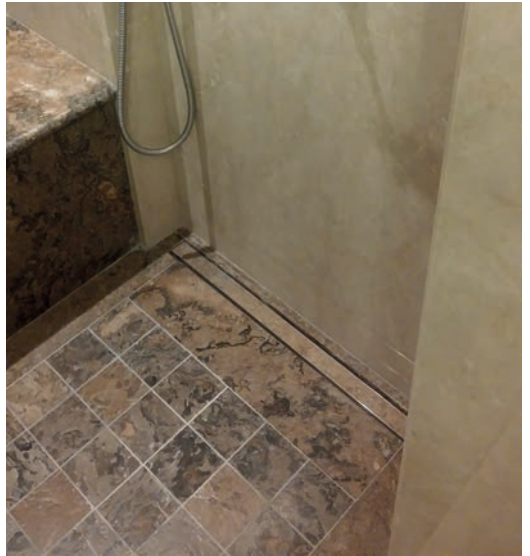

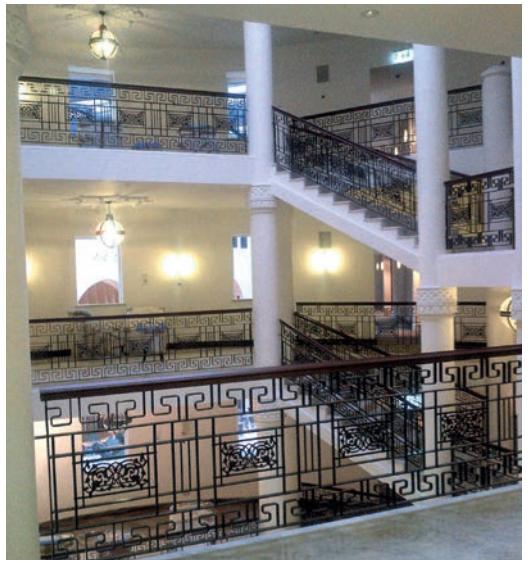

Products: CeraLine W

Project: Hotel Waldorf Astoria

Location: Jerusalem, Israel

Year: 2015
