The DallDrain ColourCollection

NEW

Coloured gratings – in 16 selected colours

The DallDrain ColourCollection adds a new highlight to the innovative DallDrain system family: coloured gratings* that skilfully set accents and give every bathroom an individual touch.

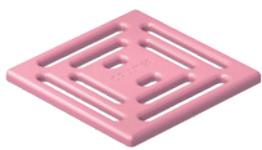

The new DallDrain ColourCollection is based on our stainless steel gratings.

Available in 16 matt-lacquered colours, these inspire new designs and give you more design freedom. Speaking of freedom of design: if you happen to be looking for a colour that is not included in the DallDrain ColourCollection, please contact us – we can create almost any RAL shade. Do you already have your DallDrain system? Then you can exchange your gratings for one of our coloured gratings in no time at all.

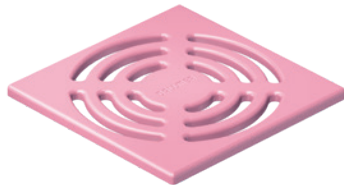

Good design – in two sizes

DallDrain ColourCollection gratings are characterised by their striking perforated pattern – so much more than just colour. Graphic, precise and detailed, they adapt to the basic square shape of the design.

The new gratings are also available in two sizes: 100 × 100 mm and 120 × 120 mm.

100 × 100 mm

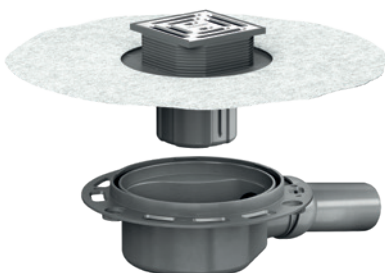

120 × 120 mm

The DallDrain system family

The DallDrain system family offers everything you need for an easy-to-install, highly flexible floor drain. It is based on three drain bodies which can be freely combined with different gratings.

The new DallDrain ColourCollection extends the already large variety of DallDrain gratings even further – and in the most beautiful way.

More information on the DallDrain system family at dallmer.com/dalldrain.

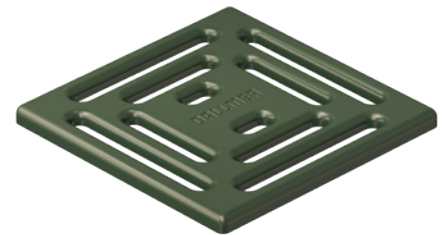

*The Pure grating frame is included in the delivery.
