

O₂ World, Hamburg

Product: iQ urinal controls

Project: O₂ World
Location: Hamburg, Germany
Architect: JSK, Frankfurt
Year: 2002

O₂ World Hamburg is one of the most cutting-edge multi-purpose arenas for sporting and cultural events in Europe. With events catering for up to 16,000 simultaneous visitors, the reliable and efficient operation of sanitary facilities is vital. The contactless iQ urinal control is based on innovative sensor technology and can be customised for a wide range of requirements. This makes it a perfect choice for the extreme demands of large sporting and event facilities, such as this arena. O₂ World in Hamburg - as well as hygienic enhancements in schools and leisure facilities.
